

## Garbage Collection (Imabari City except Hakata, and Sekizen areas)

In Imabari city, you have to separate and throw away garbage according to type: burnable, unburnable, soft plastic, bulk refuse, recyclable waste, hazardous waste, and dangerous waste at the designated collection dates and locations.

If you do not follow the rules, the garbage you throw away will not be collected by the city and cause a lot of trouble in the neighborhood.

Please keep the following rules. If you have questions, please call the *Recycle-Suishin-Ka* (Garbage Reduction Promotion Department) in Imabari City Office on 0898-36-1534, or the *Juumin Fukushi Ka* (Resident Welfare Section) in the City Branch Office in your area, with help from a Japanese interpreter if you don't speak Japanese.

Type	Collection Methods	Collection Frequency	Garbage Bags designated by Imabari City		Objects *Rules
